Together for Future VETskills

Erasmus+ KA3 (Support for Policy Reform) 2019-2021

Our promise

We, a network of experienced Finnish, Italian and Spanish partners aim to take a step ahead on European level. We aim to make skills and competences more visible and comparable in labour market on European level.

We will actively promote VET and share success stories, best practices, new innovations and EU tools primarily by developing tools and good practises and disseminating them for the European Skills Week.

We focus on internationalisations strategies and key competences.

Aim and objective

We cooperate with VET schools and companies to boost growth by providing relevant skills for the labour market, promoting a culture of lifelong learning, countering social exclusion and promoting active citizenship.

Common understanding between training institutions and working life representatives is a guarantee for a high-quality VET.

Target groups

Internal target groups are VET providers' management, staff and learners.

External target groups are other VET providers and their networks, on local, regional, national and European level as well as government and other regulatory bodies.
