Lean for Work and Lean for Life – Train the trainer to teach Lean skills in VET
18.11.2020 at 13 -14 CET

In the webinar you get information about:

- * How this Lean training course is structured
- * How to use the theory material on the Lean Principles
- * How you can teach Lean by individual and group exercises and games

The training material will be available in English, Finnish, Swedish, Dutch, Spanish and Portuguese. The webinar will be in English.

Description of the event/activity (in your official national language/s):

Tässä kansainvälisessä Webinaarissa levitetään tietoa siitä miten Erasmus+ hankkeessa LEAN FOR WORK AND LEAN FOR LIFE-Train the Trainer to Teach Lean Skills in VET on Eurooppalaisessa yhteistyössä kehitetty koulutusmateriaalia ammatillisen opettajien ja opiskelijoiden Lean taitojen kehittämiseen.

Tavoitteena on, että tietoa hankkeesta ja sen tuloksista levitetään hankkeen ulkopuolelle muille Euroopan ammatillisille oppilaitoksille ja yrityksiin. Lisäksi luoda tietoisuutta ja jakaa tietoa siitä, miten Lean-taitoja voidaan kehittää ja toteuttaa ammatillisessa koulutuksessa ja työelämässä.

Lean-taitoja on tapana kutsua "metataidoiksi", joita voi soveltaa mihin työympäristöön tai tilanteeseen tahansa, myös yksityiselämään. Lean-taitoja opitaan elämää varten ja myös työnantaja arvostaa niitä suuresti.

Leanin päämääränä on tuotteiden ja palveluiden arvon parantaminen asiakkaalle, työskentelytapamme jatkuvasti kehittäen.

Hankkeessa on mukana Suomesta, Alankomaista, Portugalista ja Espanjasta neljä ammatillisen koulutuksen partneria sekä tutkimus- ja tuotekehittelyn laitos, jotka kaikki työskentelevät organisaatioissaan Leanin parissa.

Olemme kehittäneet ja tuottaneet ammatillisen koulutuksen opettajille innovatiivisen lähestymistavan Lean-taitojensa kehittämiseen, jolloin heillä on paremmat valmiudet ohjata opiskelijaa työelämään.

Tavoitteenamme on tarjota kaikille opiskelijoille arvokkaita Lean-taitoja opintojensa aikana.

Tässä webinaarissa saat tietoa:

- * Miten tämä Lean-koulutus on rakennettu
- * Kuinka käyttää Leanin periaatteiden teoriamateriaalia
- * Kuinka voit opettaa Leaniä yksilö- ja ryhmätehtävin ja pelillisesti.

Koulutusmateriaali on saatavilla englannin, suomen, ruotsin, hollannin, espanjan ja portugalilaisella kielellä

Vielä ehtii kuulemaan ja keskustelemaan huippuluennonjohtajien tähdittämään seminaariin tulevaisuuden työelämästä! Futuristi ja tulevaisuudentutkija Ilkka Halava vie meidät työn murroksen ja tulevaisuuden osaamistarpeiden äärelle. Teemoina ovat työn murros ja artistiyhteiskunnan osaaminen:

- kun arvon tuottamisen tavat muuttuvat, niin työ muuttuu - mistä löytyy toimiva agenda?
- ihmisen ja koneen yhteistyö - teknologiavapaiden alojen häviäminen

Tulevaisuudentutkija ja tietokirjailija Elina Hiltunen raottaa tulevaisuutta megatrendien ja teknologisen kehityksen suhteen. Teemoina ovat maailma vuonna 2030- miten megatrendit ja trendit muokkaavat tulevaisuuttamme?

- maailman suuria megatrendejä ja sitä, miten ne voivat vaikuttaa tulevaisuuteen
- miten teknologia voi muuttaa tulevaisuuttamme
- ilmastonmuutos ja biodiversiteetin väheneminen, kestävä kehitys

Lopuksi kuulemme vielä yrittäjän näkökulman, miten kehittää toimintaa tulevaisuuden tekijöitä varten. Yrittäjän puheenvuoron pitää toimitusjohtaja Jari Riihijärvi JOT-Rent Oy:stä.
