Description of the event/activity (in English):

CIFP MEKA LHII is involved in new economy circular project. The aim is to make students and teachers aware of the importance of the subject.

The project consists of visiting different vocational training schools in order to get the products we need for the last event, a magnificent meal made with the diverse products that vocational training schools grow and cook.

Description of the event/activity (in your official national language/s):

CIFP MEKA LHII participa en este proyecto de economía circular junto con otros centros de Formación Profesional de Euskadi. El objetivo es que tanto los estudiantes como los profesores, sean conscientes de la importancia de este tema.

Se trata de un proyecto de economía circular en el entorno de la comida. 4 centros de Gipuzkoa, cada uno de ellos dedicado a un segmento completamente diferente, pone sus medios a disposición del resto para así observar no sólo el proceso de producción de este, sino también la manera de hacer que haya un menor despilfarro de la comida, y un mejor uso del resto.

Cada uno de los eventos, en total 4, están dirigidos a conocer lo que hacen otros centros de FP. En el primer evento, la visita se realiza a Kardala BHI, donde se observa y conoce de primera mano como se cría en pescado.

En el segundo evento, los alumnos y profesores de los centros debían hacer una excursión al centro de FP Fraisoro para aprender a cuidar de las plantas y cuál es la apropiada en cada estación del año.
